WORK EXPERIENCE

Lead Developer, Forum Communications

Fargo, ND — 2018-Present

Brought back to help lead and develop the new flagship news site, using GraphQL, Twig, and JavaScript. Strict Atomic Design was implemented and Docker local development environment.

Web Developer, FBS Data Systems

Fargo, ND — 2017-2018

Help develop the FlexMLS web app by using Ruby on Rails, SQL, JavaScript, and custom language called FlexML. Code optimization was a priority with rigorous review for best possible work. It was a mostly remote team so good communication was also very important.

Front End Developer, Forum Communications

Fargo, ND — 2015-2017

Design, develop, and test front-end code for Forum news sites. Create graphic resources and mockups needed for implementation. Understand and keep up with current UX, design and code standards.

Front End Developer, Swanson Health Products

Fargo, ND — 2013-2015

Ensure all front end code is tested and optimized. Develop project plans and ensure projects are completed within scope and deadlines. Design mockups and graphic resources for development.

Graphic/Interactive Media Designer, University of North Dakota

Grand Forks, ND — 2010-2013

Worked in marketing for Residence Services. Designed and produced calendars, planners, posters, videos, websites and special promotional materials. Supervised student graphic designers.
